

ENVIRONMENTAL POLICY

Steatite exists to meet the requirements of its customers. However, we recognise that in doing so our activities have an impact on the environment.

We are committed to controlling the impact of these activities by implementing an Environmental Management System that meets the requirements of ISO 14001:2015.

To this end we will:

- Identify the aspects of the business that impact the environment that we can control or influence.
- Minimise these environmental impacts and prevent pollution wherever possible to protect the environment.
- Set environmental objectives with targets and regularly review our performance against these objectives
- Ensure that all Legal, Regulatory, and other applicable compliance obligations are met, and
- Continuously improve our Environmental Management System.
